# Mohammed Yasser Rachih

**Junior Data Engineer | Full-Stack Developer**

Casablanca, Morocco | +212 716-972238 | yassirach17@gmail.com | LinkedIn | Portfolio

## Summary

Junior Data Engineer with a Master's degree in Big Data & Data Science, specialized in designing data pipelines (ETL/ELT, batch and streaming) with **Databricks, PySpark and Kafka**, and solid in **Java / Spring Boot** development. Seeking a position as a **Junior Data Engineer** or **Full-Stack Developer**. Available immediately.

## Technical Skills

**Data Engineering:** Databricks, Apache Spark (PySpark, Structured Streaming), Apache Kafka, Delta Lake, ETL/ELT pipelines, Lakehouse architecture, batch and real-time processing, data quality and monitoring

**Languages & Databases:** Python, Java, SQL (MySQL)

**Development:** Spring Boot, microservices architecture, REST APIs, web development (front-end and back-end)

**DevOps & Cloud:** CI/CD, containerization and orchestration of cloud-native applications, Oracle Cloud Infrastructure

## Professional Experience

**Internship – Data Engineering & Development** *Mar. – Jul. 2026*

*Marsa Maroc* Casablanca

- Designed and developed data collection, cleaning and transformation processes to make data usable by business teams.
- Helped improve the quality, reliability and performance of data flows, including the setup of process monitoring and anomaly detection.
- Contributed to the development of a platform for managing and tracking port operations.

**Founder – DataHub Startup** *2026 – Present*

*Personal project* Morocco

- Designing a centralized platform to collect, organize and standardize data from Moroccan public sources, with automated processing (retrieval, cleaning, transformation, validation).
- Designing a structured storage layer and a simple access service for the standardized data.

**Internship – Web Development** *Mar. – Jul. 2024*

*Jisr* Casablanca

- Designed and developed features for web applications (user interfaces and server side).
- Fixed bugs and improved existing applications based on user needs.

## Personal Projects

**Enterprise Data Lakehouse – Fraud Detection** *Databricks, PySpark, Delta Lake*

- Lakehouse platform for batch and streaming transaction processing, cleaning and analysis, with detection of suspicious transactions.

**Real-Time IoT Data Processing Platform** *Kafka, Databricks, PySpark, Delta Lake*

- Real-time pipeline for industrial sensors (temperature, pressure, humidity, vibration): Kafka ingestion, PySpark Structured Streaming transformation, Delta Lake storage, data quality checks and monitoring.

**Banking Transaction Processing and Analysis** *Financial data*

- Centralized transaction processing to track operations, detect unusual behavior and produce analytical indicators.

**Administrative Document Management and Verification** *Web application*

- Secure web solution for submitting, viewing and verifying documents by citizens and administrations, with status tracking.

**Library Management System** *Java, Spring Boot, microservices*

- Microservices-based application, easy to maintain and extend.

## Education

**Master's in Big Data & Data Science (Big Data track)** – *FSBM* 2024 – 2026 | Casablanca

**Bachelor's in Mathematics and Computer Science (Databases track)** – *FSBM* 2021 – 2024 | Casablanca

**Scientific Baccalaureate, Physical Sciences** – *Oued Dahab School* 2020 – 2021 | Casablanca

## Certifications and Languages

**Certifications:** Oracle Certified Professional Java SE 17 Developer; Oracle Certified Professional MySQL 8.0 Database Administrator; Oracle Cloud Infrastructure 2025 Certified DevOps Professional

**Languages:** Arabic (native), French (fluent), English (intermediate)
